These features have been specifically designed to help students apply their knowledge in exams. Written in a clear and straightforward tone, this Revision Guide is perfect for international learners.

Callous Disregard - Andrew J. Wakefield
2017-11-21

Callous Disregard is the account of how a doctor confronted first a disease and then the medical system that sought and still seeks to deny that disease, leaving millions of children to suffer and a world at risk. In 1995, Dr. Andrew Wakefield came to a fork in the road. As an academic gastroenterologist at the Royal Free School of Medicine and the University of London, he was confronted by a professional challenge and a moral choice. Previously healthy children were, according to their parents, regressing into autism and developing intestinal problems. Many parents blamed the MMR vaccine. Trusting his medical training, the parental narrative, and, above all, the instinct of mothers for their children's well-being, he chose what would become a very difficult road. Dr.

Wakefield provides the facts and an explanation of the problem that confronted him and his colleagues fifteen years ago. He does this in a detailed forensic analysis of the lies, obfuscation, cover-up, and dystopian science and medicine that panders to commercial interests at the expense of your children.

AQA Biology: A Level Year 1 and AS - Glenn Toole 2016-02-18

Please note this title is suitable for any student studying: Exam Board: AQA Level: AS Level Subject: Biology First teaching: September 2015 First exams: June 2016 Fully revised and updated for the new linear qualification, written and checked by curriculum and specification experts, this Student Book supports and extends students through the new course whilst delivering the maths, practical and synoptic skills needed to succeed in the new A Levels and beyond. Exam Board: Edexcel Level & Subject: International GCSE Biology and Double Award Science First teaching: September 2017 First exams: June 2019

Exam Literacy - Jake Hunton 2018-08-13

In Exam Literacy: A guide to doing what works (and not what doesn't) to better prepare students for exams, Jake Hunton focuses on the latest cognitive research into revision techniques and delivers proven strategies which actually work. Foreword by Professor John Dunlosky. 'Read, highlight, reread, repeat if such a revision cycle sounds all too wearily familiar, you and your students need a better route to exam success. And in light of the recent decision to make all subjects at GCSE linear, so that students will be tested in one-off sittings, it will be even more important that students are well equipped to acquire and recall key content ahead of their exams. In this wide-ranging guide to effective exam preparation, Jake Hunton casts a careful eye over a wide range of research into revision techniques and details the strategies which have been proven to deliver the best results. With plenty of practical suggestions and subject-specific examples, Exam Literacy provides teachers with user-friendly advice on how they can make the content they cover stick, and shares up-to-date, evidence-based information on: The nature of learning and the various types of memory. How to improve students' retention of knowledge and recall of content. Why popular revision techniques, such as rereading, highlighting and summarising, may not be as effective as you think. How revision strategies that have been identified as being

more effective such as interleaving, elaborative interrogation, self-explanation and retrieval practice can be embedded into day-to-day teaching. How students can be encouraged to make use of these winning strategies when revising independently.

AQA A Level Biology (Year 1 and Year 2) - Pauline Lowrie 2019-07-29

Develop experimental, analytical and evaluation skills with topical biology examples, practical assessment guidance and differentiated end-of-topic questions in this updated, all-in-one textbook for Years 1 and 2.
