[Multiculturalism, Muslims and Citizenship](#) - Tariq Modood 2006-04-18

This informative collection investigates the European dimension of multiculturalism and immigration. It argues that political theory discourse of multiculturalism and resulting EU policies assume an interpretation of liberalism developed chiefly from the American experience, and that this issue must be addressed as the European experience is entirely different (with the main influx being non-white, ethnic and religious groups challenging liberalism and existing notions of citizenship). Presenting a fresh and unique perspective of multiculturalism and citizenship in Western Europe today, this book offers a comparative series of national case studies by a diverse range of leading scholars that together provide a theoretical framework for the volume as a whole. The contributors investigate the extent to which we can talk about a common Europe-wide multiculturalism debate, or whether here too there is a Europe of two (or more) gears, in which some countries address multicultural claims swiftly whilst others lag behind, busy with more basic issues of immigrant acceptance and integration. Comprehensive and interdisciplinary, this text is essential reading for advanced undergraduates, researchers and policy makers interested in immigration, multiculturalism, European integration, Islamic studies and ethnicities.

*Freedom of Speech and Islam* - Erich Kolig 2016-04-15

Freedom of speech and expression is considered in the West a high public good and an important social value, underpinned by legislative and ethical norms. Its importance is not shared to the same extent by conservative and devout Muslims, who read Islamic doctrines in ways seemingly incompatible with Western notions of freedom of speech. Since the Salman Rushdie affair in the 1980s there has been growing recognition in the West that its cherished value of free speech and associated freedoms relating to arts, the press and media, literature, academia, critical satire etc. episodically clash with conservative Islamic values that limit this freedom for the sake of holding religious issues sacrosanct. Recent controversies - such as the Danish cartoons, the Charlie Hebdo affair, Quran burnings, and the internet film 'The Innocence of Muslims' which have stirred violent reactions in the Muslim world - have made the West aware of the fact

that Muslims' religious sensitivities have to be taken into account in exercising traditional Western freedoms of speech. Featuring experts across a spectrum of fields within Islamic studies, *Freedom of Speech and Islam* considers Islamic concepts of blasphemy, apostasy and heresy and their applicability in the modern world.

*The Magnificence of Quran* - Mahmood Bin Ahmad Bin Saaleh Ad-Dausaree

Of all of the books in the entire world, there is only one that is free of errors and defects, and that Book is none other than the Noble Quran. The word 'magnificent' is a loose translation of the word that is used in the title of the original Arabic version of this book: 'Adhama. 'Adhama conveys many similar meanings, such as magnificence, grandeur, greatness, exaltedness, and splendor. In the times we live in, great masses of people are ignorant of the greatness and magnificence of the Noble Quran; hence the dire need of books that deal specifically with the subject-matter of this work. The objective of this book is to reveal to readers certain aspects of Quran's greatness and magnificence. This book shows readers that Allah (SWT) bestowed a great favor upon the Prophet (PBUH) and the people of his nation by giving them the best and most magnificent of all divinely revealed books. The author warns Muslims not to become heedless of the Noble Quran. For it is every Muslim's duty not just to recite the Quran, but also to understand it, to reflect upon its meanings, and to implement its rulings and teachings. This book also corrects some of the more dangerous misconceptions that people have regarding the Noble Quran.
