They are also being ruthlessly targeted by the SAS. Islamic State militants are smuggling themselves into Europe using these boats. Only by locating such men before they make it into the UK can the Regiment stop them committing their acts of terror on British soil. When one of these migrants reveals plans for a sickening Christmas Day atrocity in London, SAS operative Danny Black is tasked with infiltrating the most dangerous theatre of war in the world: Islamic State heartland. There, he and his team must lift a brutal IS commander - the only man who knows all the details of the London attack. The commander surrounds himself with vicious militants and a harem of sex slaves whom he treats in the most sadistic ways imaginable. And his jihadi wife is, if possible, even more abominable than him. As Danny pits himself against the violent thugs of the Islamic State, he learns that it is not just the UK that is under threat. His very presence on the mission has put at risk the safety of those closest to him. And he discovers that there are greater forces at work here, who do not care if the innocent live or die. Now there is nothing Danny will not do, no line he will not cross, to protect his family. Whether that makes him a good soldier or a bad soldier he neither knows nor cares. Because as he is fast learning, it is sometimes impossible to tell the difference between the two. And as every SAS soldier is trained to understand, the worst threats often come from the most unexpected places...

Buyers Beware - Patricia Joan Saunders 2022-05-13

Buyers Beware treats Caribbean pop cultural texts with the same critical attention as dominant mass cultural representations of the region to read them against the grain and consider how, and whether, their "pulp" preoccupation with contemporary fashion, music, sex, fast food, and television, is instructive for how race, class, gender, sexuality, and national politics are disseminated and consumed within the Caribbean.

Rethinking 'Classical Yoga' and Buddhism - Karen O'Brien-Kop 2021-09-09

This book revisits the early systemic formation of meditation practices

called 'yoga' in South Asia by employing metaphor theory. Karen O'Brien-Kop also develops an alternative way of analysing the reception history of yoga that aims to decentre the Eurocentric and imperialist enterprises of the nineteenth-century to reframe the cultural period of the 1st - 5th centuries CE using categorical markers from South Asian intellectual history. Buddhist traditions were just as concerned as Hindu traditions with meditative disciplines of yoga. By exploring the intertextuality of the Patanjalyogasastra with texts such as Vasubandhu's *Abhidharmakosabhasya* and Asanga's *Yogacarabhumisastra*, this book highlights and clarifies many ideologically Buddhist concepts and practices in Patanjala yoga. Karen O'Brien-Kop demonstrates that 'classical yoga' was co-constructed systemically by both Hindu and Buddhist thinkers who were drawing on the same conceptual metaphors of the period. This analysis demystifies early yoga-meditation as a timeless 'classical' practice and locates it in a specific material context of agrarian and urban economies.

Lithuania - Thomas Lane 2014-04-08

Lithuania restored her independence, after half a century of Soviet occupation, in the immediate aftermath of the failed Moscow coup in August 1991. As the multi-national Soviet state disintegrated, Lithuania evolved, without war or violence, from a communist state and a command economy to a liberal democracy, a free market, and a society guaranteeing human and minority rights. Lithuania therefore offers a notable example of peaceful transition, all the more impressive in the light of the bloody conflict elsewhere in the former Soviet Union of Yugoslavia, where the aspirations to independence of the constituent republics were either violently resisted or dissolved into inter-ethnic violence. Equally remarkable has been Lithuania's determination to 'return to Europe' after half a century of separation, even at the price of submerging its recently restored sovereign rights in the supranational European Union. The cost of membership in western economic and security organizations are judged to be worth paying to prevent Lithuania's being drawn once again into a putative Russian sphere of influence. On the threshold of a new millennium therefore, Lithuania has made a pragmatic accommodation to the demands of becoming a modern European state, whilst vigorously resisting the dilution of her rich cultural and historical traditions. These twin themes of accommodation and resistance are Lithuania's historical legacy to the current generations of Lithuanians as they integrate into European institutions and continue the modernization process.

Diggin' the Dancing Queen: An Adventure In the Land of the Unexpected - Paul Richardson 2016-03-15

Ingrid Lundström, the daughter of a wealthy Swedish banker, has been a global roamer since she left school. An iconic blond, she resembles Agnetha Fältskog of Abba fame. These attributes dominate her existence, especially when she moves to Papua New Guinea, to work. Because of her connection to wealth, she becomes the target of criminals. Because

When aspiring teacher Michael Mannion hears about Ingrid's fate at the hands of kidnappers, he travels to Papua New Guinea to track her down and attempt a rescue. However, he encounters many surprises. What he doesn't know is that he's as much the problem as the solution. They say love conquers all, but in a country where it's hard to separate fact from fiction, the serious from the lighthearted, and good guys from bad guys, love may not be enough. For Ingrid and Michael, love is their path to salvation but this path takes them on a different and sometimes unpredictable adventure.

UNTITLED SECOND NOVEL - DAN MALAKIN 2023-06-08

Everyday Lifestyles and Sustainability - Fabricio Chicca 2018-04-09

The impact of humanity on the earth overshoots the earth's bio-capacity to supply humanity's needs, meaning that people are living off earth's capital rather than its income. However, not all countries are equal and this book explores why apparently similar patterns of daily living can lead to larger and smaller environmental impacts. The contributors describe daily life in many different places in the world and then calculate the environmental impact of these ways of living from the perspective of ecological and carbon footprints. This leads to comparison and discussion of what living within the limits of the planet might mean. Current footprints for countries are derived from national statistics and these hide the variety of impacts made by individual people and the choices they make in their daily lives. This book takes a 'bottom-up' approach by calculating the footprints of daily living. The purpose is to show that small changes in behaviour now could avoid some very challenging problems in the future. Offering a global perspective on the question of sustainable living, this book will be of great interest to anyone with a concern for the future, as well as students and researchers in environmental studies, human geography and development studies.

Defeating ISIS - Malcolm Nance 2016-03-08

New York Times bestseller: A "detailed and informed" look at the history and tactics of the global terror group—and how to defeat it (Richard Engel, from the foreword). ISIS—the Islamic State of Iraq and Syria—has taken on the mantle of being the single most dangerous terrorist threat to global security since al-Qaeda. In *Defeating ISIS*, internationally renowned intelligence veteran and counterterrorism expert Malcolm Nance gives an insider's view to explain the origins of this secretive group, its violent propaganda, and how it spreads its ideology throughout the Middle East and to disaffected youth deep in the heart of the Western world. Most importantly, *Defeating ISIS* gives an amply illustrated, step-by-step analysis of the street-level tactics the group has employed in assaults against fortified targets, in urban combat, and during terrorist operations such as those in Paris during the November 13 attacks. As much as ISIS is a threat to Western targets and regional stability in the Middle East, Nance describes not only its true danger as a heretical death cult that seeks to wrest control of Islam through young ideologues and redefine Islam as a fight to the death against all comers, but also how to defeat it. *Defeating ISIS* is the first highly detailed and fully illustrated look into the organization by one of the world's foremost authorities in counterterrorism. "Comprehensive, authoritative, and detailed." —*Perspectives on Terrorism* "You should buy this book." —Rachel Maddow

Automotive Industrialisation - Kaoru Natsuda 2020-10-15

This book looks at the industrial policies of Southeast Asian economies in their motor vehicle industries from early import substitution to policy-making under the more liberalised WTO policy regime. The book examines how inward automotive investment, especially from Japan, has been affected by policies, and how such investment has promoted industrial development in the late-industrialising economies within ASEAN (Association of Southeast Asian Nations). It provides insights into the automotive industry of Southeast Asia in terms of production volumes, sales volumes, market structure, and trade. Through country case studies, the book is a useful reference and illustrates how industrial policies in Southeast Asia have affected the spread of automotive development in the region. It will appeal to policy-makers and researchers interested in the automobile industry, industrial policies in the industry and the spread of development from foreign investors to local firms.

Panther of the Punjab - No-surname KDR 2016-02-08

Captain Sima Yasmeen of British Intelligence, working deep undercover disguised in an Afghan burkha, infiltrates one of Al-Qaeda's cavernous hideouts in Afghanistan in an attempt to find out what terror mastermind Osama bin Laden is plotting just prior to the 9/11 WTC bombing in New York. When she shockingly discovers that, Osama has acquired a nuclear weapon purchased from a corrupt Army officer, Brigadier Musa Khan, of Pakistan's ISI Inter-Services Intelligence. And informs her MI6 controller, Colonel Sandy Campbell. While visiting her oilfield in Kazakhstan to ratify the final route for an oil pipeline, billionaire Rani Becker is brazenly kidnapped by Al-Qaeda terrorists who intend extorting millions to partially fund Osama's purchase of the nuclear bomb. Rani's team of ex-SAS bodyguards, Killa, Kaffa Dog and Jumbo eventually pick up her trail which leads them from the sparsely inhabited deserts of Kazakhstan and Turkmenistan, through mountainous Afghanistan, and thence to Rawalpindi and Peshawar in Pakistan where they join forces with Sandy and Sima. Enlisting the resources of Gurkha RSM Nima and his tough band of ex-Gurkhas from the Himalaya, the combined teams set out to rescue Rani Becker. And also nullify the nuclear bomb threat. They're brilliantly assisted by Rani's chief pilot, ex-Falklands combat veteran Max, who tracks the ground convoys using satellite technology and hi-resolution surveillance cameras from the overflying company Hercules. Still dressed in an Afghan burkha, Sima is rumbled by nuclear physicist Azziz and promptly seized by Musa Khan in the den of contraband narcotics that is Smugglers Bazaar in Peshawar. Rani is coerced into signing the oil pipeline agreement. Still held captive by Ruthless Khan, Rani and Sima and then forced to accompany the nuclear weapon and join Khan's heroin convoy en-route to a smuggling rendezvous with a vessel on the coast of the Arabian Sea in southern Baluchistan. The rolling fire-fight action is continuous. This manuscript contains common everyday swearing and humour combined with action packed explosive adventure throughout. It's meant to entertain and is written by a free person living in a supposedly free speech country. With no offence, implied or intended to any person, political or religious group

or culture. The author reserves the right of free speech. Quite obviously, some literary licence has been exercised in writing this fictional novel. Most of the locations are real. The dates of certain historical events are chronologically correct. For the most part, other than known historical identities already in the public domain; the characters are quite fictitious and any resemblance to dead or living persons is entirely coincidental.

The Origin of Competitive Strength - Akira Kawahara 2012-12-06

When the war ended on August 15, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the

Topeka Capital-Journal and the September 13, 1983 issue of the Asian Wall Street Journal. The Topeka Capital-Journal headline read, "MacArthur's Jeeps Were the Toyota Catalyst."

Winding Back the Clock - Ian Laurence 2012-09-18

American lawyer Katie Talbot is on the trail of the treasures that were looted from her ancestral home on the island of Rgen by two brothers, who were agents of the secret police in the days of the former East Germany. Detlef Weber is also on the trail of the brothers, as they murdered his father. The paths of Katie and Detlef criss-cross as they each pursue their quest, but both get caught up in the rise of a new far-right political party in Germany that is threatening the stability of Europe. It all comes to a climax in Weimar, the center of so much culture and political history. Author Ian Laurence has done a masterful job here, weaving well-developed characters into an imaginative plot that builds

interest chapter after chapter. He successfully connects his fiction to history, adding enough factual details to make the story believable without overwhelming it. In addition, Laurence knows when to drop in critical foreshadowing to keep readers guessing. It is sure to please fans of suspense novels who appreciate thought-provoking history skilfully cross-connected with a credible and vivid story line. - Blueink Review
Laurence keeps readers guessing about the outcome until the very end. A whirlwind trip around the globe, a little glamour, and a lot of intrigue. - ForeWord Reviews (Clarion Review)
Winding Back The Clock is fast moving and energetic, full of plots and counter-plots. The author has obviously done his research, and the historical information is clearly presented, although sometimes too didactically. The interplay of the different characters, with their different motivations, is well drawn, and the villains are downright chilling. - IndieReader
