Survival of the Quickest - Ben Coombs
2012-08-13

"...as satisfying and moving as a good novel." -
Classic Cars Magazine."...a highly recommended
read for any Porsche or travel fan." -

PurelyPorsche. Survival of the Quickest - Across
Africa. In a Porsche. 15,000 miles. 26 countries.
One unforgettable adventure. In autumn 2008,
Laura Reddin and Ben Coombs set off to drive

from England to South Africa in a classic Porsche 944. No such journey had ever been made before, and everyone said it was impossible. They said the two young adventurers would end up broken down in the middle of some baking desert, or be robbed at knifepoint. They were right on both counts. But what they couldn't predict was that through the highs and the lows, the breakdowns and the bureaucracy, the red tape and the robberies, Laura and Ben would grow closer than they could imagine, and find romance amid Africa's epic vistas. From the edgy streets of Syria to the rutted tracks of Kenya, via the war-torn sands of the Sudan, *Survival of the Quickest* is the first book to describe the absolute cutting edge of adventurous road trips in gritty, honest detail. At turns inspiring, absorbing and thought-provoking, it shows just what can be achieved with a tough old car, a well-worn passport and a whole heap of determination.

*Building a Special with Ant Anstead Master
Mechanic* - Ant Anstead 2021-07-20

Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together

to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.
